FAISAL HOSSAIN

Curriculum Vitæ

Civil and Environmental Engineering
Wilcox 167
Box: 352700
Seattle, WA 98195

Phone: 931 239 4665
Fax: 206- 543-1543
Email:fhossain@uw.edu

EDUCATIONAL HISTORY

University of Connecticut, Storrs, CT, USA
PhD Environmental Engineering,
August 2004
Dissertation: Investigating Error Propagation in Flood Prediction Based on Remotely Sensed Rainfall

National University of Singapore, Singapore
M. Eng, Civil Engineering,
May, 1999
Thesis: System-specific Statistical Modeling of SBR Bulking

Indian Institute of Technology, BHU, Varanasi, India
B.Tech, Civil Engineering,
May, 1996

EMPLOYMENT HISTORY

University of Washington, Department of Civil and Environmental Engineering
Seattle, WA, USA
Professor (2017 June –present)

University of Washington, Department of Civil and Environmental Engineering
Seattle, WA, USA
Associate Professor (2014 February –2017 June)

Tennessee Technological University, Department of Civil and Environmental Engineering
Cookeville, TN, USA
Associate Professor (2009-2014 January) Assistant Professor (2004-2009)

AWARDS AND HONORS

Science/Research/Education Awards
NASA Early Adopter Award, 2024
UW Excellence in Global Engagement Award, 2023
Fellow, American Meteorological Society, 2022
Fellow, Environmental and Water Resources Institute, ASCE, 2022
John R. Kiely Endowed Professorship, 2021-2025
ASCE 2021 Editor's Choice Award in Journal of Hydrologic Engineering, 2021
ASCE EWRI 2020 Best Case Study Award in Journal of Hydrologic Engineering, 2021
AGU International Award, 2020

ASCE EWRI 2018 Outstanding Achievement Award, 2018
Outstanding Reviewer, Environmental Research Letters, 2016
ASCE Walter L. Huber Award, 2015
American Meteorological Society Editor's Award, 2015
AGU Charles Falkenberg Award (A Union Award), 2012
Graduate of the Last Decade (G.O.L.D) Award – University of Connecticut, 2012
US Fulbright Faculty Award, 2012
Caplenor Award (Tennessee Tech University Highest Award), 2012
ASCE Outstanding Reviewer Award, Journal of Hydrologic Engineering, 2011
Education Excellence Award, National Association of Environmental Professionals, 2010
Outstanding New Faculty Research Award, American Society of Engineering Education, 2009
NASA New Investigator Program Award, 2008
Outstanding PhD Thesis Award, School of Engineering, University of Connecticut, 2005
NASA Earth System Science Fellowship, 2002

Media/Outreach Awards

Total 66 awards/selections for "The Silent Route" (https://www.animatick.com/the-silent-route)
11 Best Film awards; 17 as finalists/semi-finalists/quarter-finalists; @ BAFTA/Oscar qualifying festivals
Seattle Tech-Doc Film Selection for Short Documentary "Cotton Fields," 2018
AGU Cinema Selection for Short Documentary "Cotton Fields," 2017
11th Eco-Film Festival Selection for Short Documentary "Cotton Fields," Malaysia, 2017
Tasveer South Asian Film Festival for Short Documentary "Cotton Fields" Seattle, 2017
Best Film "Cotton Fields" – University of Washington Makers Summit, Seattle, USA, 2017
9th Eco-Film Festival Selection for Short Documentary "Bay of Hope" Malaysia, 2015

AFFILIATIONS AND OTHER APPOINTMENTS

Site Reviewer, National Science Foundation, 2024
Reviewer, National Academy of Science, Engineering and Medicine, 2024
Co-chair, US-Iraq Science and Technology Dialogues, US State Department, 2022-2024
Deputy Program Associate, NASA Surface Water and Ocean Topography (SWOT) Mission, 2020-2022
Member, Physical Oceanography DAAC User Working Group, Jet Propulsion Lab/NASA, 2018-2021
Member, New Voices in Sciences, Engineering, and Medicine, National Academies of Science, Engineering and Medicine, 2018-2019
Vice-President of Academic Affairs, American Institute of Hydrology, 2017-2019
Member, Steering Committee, Earthlab, University of Washington, 2015-2018
Associate Professor, Interdisciplinary Arts and Sciences, University of Washington Tacoma, 2014-2016 [33% appointment at Tacoma with 67% appointment in Seattle]
Chair, Task Committee on Infrastructure Impacts of Landscape-driven Weather Change, ASCE, 2014-2017
Visiting Professor, Department of Infrastructure Engineering, University of Melbourne, Australia, December 1- December 31 2016

PUBLICATIONS

Refereed archival journal publications
[IF=Impact Factor (most recent); H-Index=52 (GS); 34 (WoS). Citations=8700 (GS; as of 10/2024); Footnote: 1- graduate student advised as major advisor; 2- students advised for independent study or non-degree projects; 3-post-doctoral associate; 4-corresponding author]

In press/accepted/revision/review
189. Minocha[1], S and F. **Hossain**[4] (2025) Declining Global Reservoir Capacity: How Much Remains and Which Reservoirs Are Most at Risk? *Nature* (in preparation)

188. Suresh[1], S and F. **Hossain**[4] (2025) Has Hydropower made the World more Flood-prone? *Earth's Future* (In review)

187. Darkwah[1], G and F. **Hossain**[4] (2025) Exploring the Potential of Remote sensing-based River Temperature Tool for Improving Columbia River Reservoir Management Towards Fish Abundance Outcomes, *Water Resources Research* (In press)

186. Das[1], P. and F. **Hossain**[4] (2025) Multi-satellite Tracking of Surface Water Storage Change in the SWOT Era, *Earth and Space Science* (In press)

185. Minocha[1], S, and F. **Hossain**[4] (2024) GRILSS: Opening the Gateway to Global Reservoir Sedimentation Data Curation, *Earth System Science Data*, https://doi.org/10.5194/essd-2024-470.

184. Khan[1], S, F. **Hossain**[4]**,** M. Ahamed (2024) Satellite Data Rendered Irrigation using Penman and SEBAL (sD.R.I.P.S) for Surface Water Irrigation Optimization, *Agricultural Water Management* (In press)

183. Minocha[1], S. P. Das[1] and F. **Hossain**[4] (2024) Reservoir Assessment Tool (RAT): A Python Package for monitoring the dynamic state of reservoirs and analyzing dam operations, *Digital Water*, (In press).

10. Towards Climate-resilient, Water-efficient, Fuel-efficient and Decarbonized Rice Production System of Bangladesh, *Invited Seminar,* International Islamic University Chittagong, Aug 13, 2022.
11. Growing More with Less, *National Workshop on Customized Irrigation and Climate Services,* Organized by Pakistan Council of Research in Water Resources, Islamabad, Pakistan, May 24, 2022.
12. How are Dams Changing Our Rivers in Developing Regions? *UW Osher Institute Freshwater Series*, March 3, 2022.
13. Producing More with Less using Sensing, Information Technology and Machine Learning, Keynote Speaker, *2022 International Conference on Innovations in Science, Engineering and Technology,* Chittagong, Bangladesh Feb 26, 2022.
14. How are Dams Changing Our Rivers in Developing Regions? *Terrestrial Water Seminar,* NASA Hydrological Science Branch, Goddard Space Flight Center, DC, April 5, 2021
15. How are Dams Changing Our Rivers in Developing Regions? *Graduate Seminar, University of Illinois, Urbana-Champaign*, March 12 2021.
16. Story telling in Science, Engineering and Medicine, CSBC/PS-ON Education and Outreach Program (Cancer Society), November 10, 2020.
17. AAAS Lecture -The Future of Water and Human Decision-making, *Meeting Food and Water Security Challenges in the Developing World with Models, Data and Stakeholder Engagement,* Feb 15 2020.
18. USAID invited Global Online Webinar for Agrilinks – Sustainable Food Systems. *Growing More with Less: Smart Technology Solutions to Feed the World*, Jan 29, 2020.
19. University of Washington Engineering Lecture Series – Fall 2019. *Growing More with Less: Smart Technology Solutions to Feed the World*, October 10, 2019. Lecture video online - https://www.youtube.com/watch?v=9OPq66LbFLs.
20. Asian Development Bank, Manila – Asia Water Forum-2018, *Mainstreaming Satellite Earth Observations and Smart Technology for Addressing Water-Food Security Challenges of Asia*, October 3, 2018.
21. USAID HQ, DC, *The Wonderful Experience of Serving On USAID PEER Projects: Lessons Learned for The Future*, March 14, 2018.
22. World Bank HQ, DC, *Feeding Asia: An Operational Irrigation Advisory System Using Earth Observations And Smart Technology*, March 14, 2018.
23. AAAS Annual Meeting – Invited Panel Talk, Austin, Texas, *Bringing the Societal Benefits of Satellite Remote Sensing in the Developing World: The Case for Water Security and GRACE*, February 15, 2018. (Jay Famiglietti presented on behalf of speaker).
24. American Geophysical Union (AGU) Fall Meeting- New Orleans Invited Talk, *Taking Research and Knowledge to the Common People: The Case for Water Security*, December 2017.

25. Program for Climate Change (PCC) – Invited Talk, *Management Challenges of World's Water Resources: A Developing World Perspective,* Friday Harbor, San Juan Islands, September 15, 2017.
26. World Bank HQ, DC, *Building Solutions for the Water Sector using Remote Sensing: A Developing World Perspective,* March 15, 2017.
27. Asian Development Bank HQ, Manila, Philippines, *Smart Use of Satellite Remote Sensing for Water Management and Food Security,* November 14, 2016.
28. University of Melbourne, Department of Infrastructure Engineering. Melbourne, Australia. *Management challenges of the world's water resources: a developing world perspective.* May 18, 2016.
29. Environmental Defense Fund (EDF)-San Francisco, Science Day Invited Speaker, *What must be done to best use satellites for social good?* February 10, 2016.
30. American Meteorological Society (AMS) 96th Annual Meeting - New Orleans, Invited Presentation on *"Perspective and plans for future observing systems in earth system science"*, January 11, 2016.
31. University of Washington, School of Forestry Sciences, *Management challenges of the world's water resources: a developing world perspective,* March 11, 2015.
32. NASA E2 Workshop Tacoma, Inaugural Speaker, *Globalizing societal application of scientific research and observations from remote sensing: The path forward,* June 23, 2015.
33. San Diego, NASA-CNES Surface Water Ocean Topography (SWOT) Mission Science Meeting – Keynote Lecture, *SWOT contributions to improved understanding of human impacts on hydrology,* January 2015.
34. University of Washington, Department of Civil and Environmental Engineering, *Advancing river modeling in ungauged basins: The case of Ganges Brahmaputra Meghna basins,* January, 2015.
35. University of Washington, Program for Climate Change (PCC) Seminar Series, *Advancing river modeling in ungauged basins: the case of Ganges Brahmaputra Meghna Basins,* December 2, 2014.
36. University of Houston, Department of Civil and Environmental Engineering, *Advancing river modeling in ungauged Basins: The case of Ganges Brahmaputra Meghna basins,* November 7, 2014.
37. WellSprings-2014 at Tacoma (WA), *Big Data, Little Water,* October 14, 2014.
38. Microsoft Research Faculty Summit for Latin America, Vina del Mar, Chile, *Delivering hydrological information for community empowerment: Opportunities and challenges for the semi-skilled consumer,* May 8, 2014.
39. University of Washington, Global Change Program, Department of Computer Science and Engineering, *Delivering hydrological information for community empowerment: opportunities and challenges for the semi-skilled consumer…and some after-thoughts on global health,* April 29, 2014.
40. University of Washington, Tacoma, *Empowering sovereign management of water resources: application of remote sensing to developing world problems,* February 24, 2014.
41. University of Washington, Freshwater Colloquium, *Empowering sovereign management of water resources: application of remote sensing to developing world problems,* Seattle, October 22, 2013.
42. Nangyang Technological University, *Understanding infrastructure resilience of dam-reliant cities under changing patterns of extreme weather,* Singapore, December 10, 2012.
43. University of Connecticut, Alumni Association G.O.L.D Award ceremony, *crossing the valley of death: promoting environmental research for societal applications,* Storrs, October 12, 2012.
44. Western Kentucky University, *Promoting the value of water cycle remote sensing and climate studies to non-traditional consumers, Western Kentucky University,* March 16, 2012.

45. Jet Propulsion Laboratory-Caltech, *Promoting the value of water cycle remote sensing and climate studies to non-traditional consumers*, Pasadena, March 12, 2012.
46. University of Texas-San Antonio, Department of Civil and Environmental Engineering, *Climate-feedback based paradigm for management and design of impounded river basins, ,* November 18, 2011.
47. International Geosphere-Biosphere Program (IGBP), 3rd International iLEAPS Conference, Garmisch Partenkirchen, Germany, *A Bottom-up vulnerability approach to adaptation to climate and other threats,* September 22, 2011
48. NASA Goddard Space Flight Center, Greenbelt, *Impact of artificial reservoirs on local climate,* Terrestrial Water Cycle Seminar, May 26, 2011.
49. University of Mississippi, Department of Civil and Environmental Engineering, *The 21st century civil engineering program,* April 25, 2011.
50. University of Georgia, *Impact of artificial reservoirs on local climate*, Department of Geology, April 15, 2011.
51. University of Connecticut, Department of Civil and Environmental Engineering, *Impact of artificial reservoirs on local climate,* April 8, 2011.
52. University of South Carolina, Department of Civil and Environmental Engineering, *Of dams, transboundary water and their lesser known impacts*, April 2, 2010.
53. University of California-Irvine, Center for Hydrology and Remote Sensing, *Of dams, transboundary water and their lesser known impacts*, March 12, 2010.
54. Jet Propulsion Laboratory, Caltech, *Of dams, transboundary water and their lesser known impacts*, March 11, 2010.
55. Purdue University, Department of Agricultural Engineering/Civil Engineering, *Of Dams, Transboundary water and their lesser known impacts*, November 16, 2009.
56. West Virginia University Institute of Technology, ASCE Student Chapter Invited Speaker, 46th Convention, Montgomery, *Sustainable application of satellites for water resources management: past, present and future*, West Virginia, November 20, 2008.
57. Ohio State University, SWOT Hydrology Workshop, *Potential applications of SWOT data to international water management issues,* September 16, 2008.
58. Regional Symposium on Climate Change, Food Security, Sea Level Rise and Environment in South Asia, Dhaka, Bangladesh, *Understanding surface water flow and storage changes using satellites*. August 24, 2008.
59. Georesources Institute, Mississippi State University, Starkville, *Sustainable application of water-measuring satellites for water resources management: past, present and future,* April 4, 2008.
60. University of Tennessee, Knoxville, *Sustainable application of water-measuring satellites for water resources management: Past, present and future,* March 24, 2008.
61. Institute of Water Modeling (Bangladesh), *An overview of current research on advancing overland hydrologic application of satellite rainfall data at TTU,* July 24, 2007.
62. Vanderbilt University-Environmental Seminar Series, Nashville, *A paradigm for spatial mapping of groundwater contamination in rural settings: Lessons from arsenic contamination in Bangladesh*, April 6, 2007.
63. US Army Corps of Engineers, Engineering Research and Development Center, Vicksburg, *The challenges of flood monitoring across political boundaries: Taking stock of emerging opportunities and moving ahead,* November, 16 2006.
64. University of Mississippi, Oxford, *The challenges of flood monitoring across political boundaries: taking stock of emerging opportunities and moving ahead,* November, 17, 2006.
65. University of Connecticut, *The challenges of flood monitoring across political boundaries: taking stock of emerging opportunities and moving ahead*, May 11, 2006.
66. Indian Institute of Technology, Kanpur, India, *Assessment of remotely-sensed rainfall for monitoring of floods in the 21st century,* July 19, 2005.

67. Center for Environmental and Geographic Information System, Dhaka, Bangladesh, *Satellites for monitoring surface and sub-surface hydrologic calamities in Bangladesh: an assessment of opportunities and challenges*, May 11, 2005.
68. Oak Ridge National Laboratory, Environmental Sciences Division, *Assessment of remotely-sensed rainfall for monitoring of floods in the 21st century*, May 6, 2005.
69. NASA Goddard Space Flight Center, Hydrological Sciences Branch, Greenbelt, *Assessment of satellite rainfall for flood forecasting in international river basins*, February 11, 2005.
70. Sigma Xi Tennessee Tech. Chapter, *Assessment of satellite rainfall for flood forecasting in international river basins*, January, 20, 2005.
71. Tennessee Technological University, *Satellite-based flood prediction*, May 10, 2004.
72. University of Connecticut, Environmental Scholars Colloquium, Storrs, CT, *Assessment of current passive microwave and infra-red based satellite rainfall remote sensing for flood prediction of ungauged watersheds*, March 28, 2003.

Professional society memberships.
Professional Hydrologist. American Institute of Hydrology (License No. 14-H-6012)
Full Member, American Society of Civil Engineers (ID No. 434334)
Member, American Geophysical Union.
Member, American Meteorological Society.

GRADUATE STUDENTS

Doctoral Students (only chaired ones shown)

Student Name	Dissertation Topic	Current Employer	Graduation Date
Pritam Das	Reservoir Outflow Forecasting in Transboundary River Basins	UW	Spring 2025
Sanchit Minocha	Global Reservoir Sedimentation Monitoring from Space	UW	Spring 2026
Shahzaib Khan	Using Citizen Science and Surface Water Remote Sensing Missions to improve Water Management	UW	Fall 2025
George Darkwah	Reservoir Water Quality Management from Space	UW	Spring 2026
Sarath Suresh	Understanding Impact of Reservoir-driven water temperature changes	UW	Spring 2026
Claire Beveridge	Application-oriented approaches to modeling and satellite-based monitoring of watershed sediment dynamics	Catholic Relief Services	Summer 2020
Xiaodong Chen	Probable Maximum Precipitation in a Changing Climate	Pacific Northwest National Laboratory	Autumn 2017
Matthew Bonnema	Satellite-based Reservoir Monitoring and SWOT Mission	NASA-JPL	Fall 2019
Hisham Eldardiry	Water Management of the Nile River	Pacific Northwest National Laboratory	Winter 2021
Nishan Biswas	Enhancing Skill of Satellite Earth Observations of Surface Water	NASA Goddard Space Flight Center	Winter 2021
Shahryar Ahmad	Water-Energy Nexus	NASA Goddard Space Flight Center	Winter 2021
Wondmagegn Yigzaw	Water sustainability of cities and dams	University of Houston	February 2016
Abel Woldemichael	Modification Of Regional Hydroclimatology In Impounded River Basins	N/A	June 2015

Abebe Gebregiorgis	Hydrologically-Relevant Merging Of High Resolution Satellite Precipitation Products for Hydrologic Application	Harris County Flood Control District, Houston, TX	June 2013
Ahmed Mohamed	A Comprehensive Observational Study On The Impact Of Artificial Reservoirs On Local Hydroclimatology	Mekelle University, Ethiopia	August 2013
Ling Tang	Transfer Of Uncertainty Of Space-Borne High Resolution Rainfall Products At Ungauged Regions	ESRI Inc.	August 2011

Masters Degrees (only chaired ones shown)

Student Name	**Level of Supervision**	**Thesis/Paper Title**	**Completed (Year)**	**Current Employer**
Ibrahim Aldalis	Thesis	Water Security of the Middle East	TBD	
Mridul Sharma	Thesis	Improving Reservoir Modeling for Water Management applications	TBD	
Sanchit Minocha	Thesis	Reservoir Assessment Tool 3.0: An open source and user-friendly modeling platform to Mobilize the Global Water Community	Fall 2023	UW
Pritam Das	Thesis	Reservoir Assessment Tool 2.0: Stakeholder driven improvements to Satellite Remote Sensing based Reservoir Monitoring	Fall 2022	UW
Shahzaib Khan	Thesis	Using Citizen Science and Satellites for Lake Volume Estimation	Fall 2022	UW
Indira Bose	Thesis	Making Smart Irrigation Smarter with GRACE/GRACE-FO Gravimetric Data	Winter 2021	Wolf Water Resources – Portland, OR
Nishan Biswas	Thesis	A scalable open-source web-analytic framework to improve satellite -based operational water management in developing countries	Spring 2017	NASA
Shahryar K. Ahmad	Thesis	Optimizing Hydropower Dam Operations	Autumn 2017	NASA
Mehedi Maswood	Thesis	Advancing River Modeling Using Satellites	2014	Woolacotts Consulting,Australia
Adam Stratz	Thesis	PMP in a Changing Climate: Implications for Dam Design	2014	Department of Energy
Travis Hamby	Coursework only	Flood risk assessment of lakes and reservoirs within Cumberland river basin	2011	CTI Engineers Inc.
Caitlin Moffit	Thesis	Validation of NASA Global Flood Detection System in	2010	Tennessee Valley

		Bangladesh		Authority
A H M. Siddique-E-Akbor	Thesis	The Surface Water and Ocean Topography Mission for Water Management in Bangladesh	2010	Institute of Water Modeling, Bangladesh (2010-2012)
Matthew Boynton	Thesis	Improving Engineering Education Outreach in Rural Counties through Risk Analysis and Hands-on Activities	2009	Engineering Coordinator, Virginia Tech.
Mohammed Chowdhury	Thesis	Improving spatial mapping of arsenic contamination in Groundwater	2009	British Petroluem
Nitin Katiyar	Thesis	Development of an Open-Book Watershed Modeling Framework for Flood Forecasting Systems in International River Basins	2007	Hydro-QUAL – New York
Amanda Harris	Thesis	Investigating Optimal Configuration of Hydrologic Models during Data Denial Situations Using Satellite Data	2007	US Army Corps of Engineers – Nashville District
Preethi Raj	Thesis	Error Budget Analyses of Hydrologic Models: Understanding Applications for Satellite Rainfall Data	2007	Returned to India

RESEARCH ACTIVITIES

Funded Research (Total ~ 15+ million USD; My Amount ~8 million USD)

Funding Agency	Title	Total Amount	University Matching, if any	My Amount	Role	Dates
NASA	Quantifying the net impact of the SWOT mission in improving our understanding of human regulation of surface water around the world	$824,500	$0	$824,500	PI	2024-2028
UAE Crown Farms	Satellite-based Irrigation Tracking System	$30,000	$0	$30,000	PI	2024-2025
NASA	Open Science Development of Reservoir Assessment Tool (RAT) Software for Enabling Global Water Science and Management Breakthroughs with the SWOT Mission	$54,414	$0	$54,414	PI	2024-2025
Yet2.co	Women's Aquaboost	$28,000	$0	$28,000	PI	2024-

m (via NASA)						2025
NSF (via USC)	Piloting a Precision Landscape Irrigation Advisory System Using Soil Sensors, Satellites and A Low-Powered Wide Area Network	$50,000	$0	$50,000	PI	2024-2025
NASA	Strengthening Regional and National Capacity for Operational Flood and Drought Management Services for Lower Mekong Nations via Mekong River Commission and SERVIR-Mekong	$700,000	$0	$344,212	PI	12/22-12/25
NASA	Improved Reservoir Management with Simultaneous Monitoring of Water Quantity and Quality using Multiple Satellites, SWOT and RAT-WQ^2	$1,029,182	$0	$1,029,182	PI	06/22-05/26
NASA	Lake Observations from Citizen Scientists and Satellites: Validation of Satellite Altimetry to Support Hydrologic Science	$423,621	$0	$423,621	PI	06/21-12/25
NASA	Exploring SWOT nadir altimeter synergy with SWOT wide-swath interferometry (KaRIn) for improving hydrologic investigations of surface water dynamics	$105,000	$0	$105,000	PI	06/22-05/23
JPL	SWOT Application Activities	$60,000	$0	$60,000	PI	11/21-09/22
JPL	Jason-3 Altimeter Activities	$40,000	$0	$40,000	PI	11/20-11/21
JPL	SWOT Application Activities	$60,000	$0	$60,000	PI	11/20-11/21
NASA	Operational Services for Water, Disaster and Hydropower Applications for Lower Mekong Populations Using NASA Earth Observations and Models	$661,000 (PI from University of Houston	$0	$333,000	Co-I	01/20-12/22
NSF	NSF Research and Training (NRT) -	$2.99 million	$0	$60,000	Co-PI	10/2019-09/2024

	Training a Scientifically Innovative, Communication Savvy STEM Workforce for Sustaining Food-Energy-Water Services in Large and Transboundary River Ecosystems					
NASA	Tracking Water Storage in Lakes: Citizens and Satellites	$1.5 million (PI – from UNC)	$0	$300,000	Co-I	04/18 - 03/21
NSF	Linking Current and Future Hydrologic Change to Hydropower, Human Nutrition, and Livelihoods in the Lower Mekong Basin"	$1.24 million (PI from UW Fisheries)	$0	$280,000	Co-I	07/17-06/20
JPL	NASA Jason-2, Jason-3 Altimetry Missions Applications Activities	$50,000	$0	$50,000	PI	03/18-08/19
JPL	NASA Jason-2, Jason-3 Altimetry Missions Applications Activities	$50,000	$0	$50,000	PI	03/17-08/18
NASA	Building Lasting Capacity for Water Management in Vulnerable Deltas of Indo-China	$510,000 (PI from University of Houston)	$0	$280,000	Co-PI	07/16-06/19
NASA	Towards Operational Water Resources Management in South Asia Exploiting Satellite Geodetic and Remote Sensing Technologies	$ 1.48 million	$0	$914,000	PI	11/14-10/18
DoD	Effects of Global Change on Extreme Precipitation and Flooding	$850,110 (PI from UCLA)	$0	$40,000	Co-I	5/15-4/18
USAID-DIV Stage 1	Satellite-based Flood Inundation Warning on Affordable Mobile Platforms to Empower Farmers	$175,000 (5 million & 15 million for Stage 2 and 3, respectively)	$25,000	$150,000	PI	10/15-09/17
NASA	Globalizing Societal Application of Scientific Research and Observations from Remote Sensing: The Path Forward	$93,437	$0	$93,437	PI	05/15-04/16
NASA	SWOT Science Team Preparations for Ground-truthing, Discharge Product	$428,437	$0	$428,437	PI	06/16-12/20

	Development and Water Management Applications in Asian River Systems					
NASA	Operational Flood Forecasting in Flood-prone River Deltas of the Developing World: Setting the Path forward for Current and Future Satellite Water Missions	$90,000	$0	$90,000	PI	09/16-08/19
NASA	Improving the Accuracy and Reliability of Space-Borne Discharge Estimation from SWOT for Low-lying Humid Tropical Regions of the World	$215,740	$0	$215,740	PI	12/12-3/16
NASA	A Satellite-based Early Warning, Mapping and Post-Disaster Visualization System for Water Resources of Low-lying Deltas of the Hindu Kush-Himalayan Region	$780,000	$0	$660,000	PI	8/14-7/16
NASA	Toolbox Development for River Height Extraction from Radar Altimeters: Facilitating Global Applications using JASON-2	$59,500	$0	$29,500	PI	08/14-07/15
NSF	Bangladesh Delta: Assessment of the Causes Of Sea-Level Rise Hazards And Integrated Development Of Predictive Modeling Towards Mitigation And Adaptation (BAND-AID)	$138,733	$0	$138,733	PI	04/14-03/17
NASA	The Future of Our Cities and Ageing Dams: Using NASA Satellites to Understand Changing Patterns of Infrastructure Safety for Resource-Hungry US Cities	$82,800	$0	$82,800	PI	08/13-07/16
NASA	Understanding Atmospheric Rivers, Terrain and Anthropogenic Land	$82,800	$0	$82,800	PI	08/12-07/15

	Cover Changes on Storm Modification around Large Dams using Multi-sensor Satellite Data, Cloud Tracking and Numerical Modeling					
NASA	Modeling the hydrologically-relevant features of uncertainty of NASA's high resolution precipitation products for advancing global applications over ungauged regions.	$82,800	$0	$82,800	PI	08/08-07/11
US Dept. of State	Strengthening Institutional Resilience of Bangladesh to Recurrent Flooding By Improving Operational Capacity For Early Detection Using Satellites	$24,000	$0	$24,000	PI	07/12-06/13
NASA	Advancing the Hydrologic potential of NASA's TRMM-based Satellite Rainfall Estimation System for Global Flood Monitoring in Anticipation of GPM	$310,000 (NASA New Investigator Program)	$0	$310,000	PI	07/08-06/12
NASA	Defining Optimality Criteria for the Effective Use of Satellite Precipitation Datasets in Land Surface Hydrology and Water Cycle Studies	$425,000 (PI from Univ. Connecticut)	$0	$156,000	Co-PI	05/07-04/11
NASA	Validating Prototype GPM Data for SERVIR System in MesoAmerica	$30,000	$0	$30,000	PI	05/07-04/08
NASA	GPM Data Integration in HEC-HMS	$64,655	$0	$64,655	PI	05/07-04/08

DOCUMENTATION OF TEACHING EFFECTIVENESS

Courses Taught & Student Evaluations

Course	Title	Qtr	Cr. Hrs	Enroll-ment	Evaluation Response	Item 1	Item 3	Item 4	Avg (1-4)
CEWA 579	Quant. Water Management	Winter 2025	3	5	2	3.5	3.5	3.5	3.5
CEWA 566	Satellite Remote Sensing	Fall 2024	3	5	5	4.9	4.9	4.9	4.9

	for Water Resources

PEER TEACHING EVALUATION

Course	Quarter	Reviewer
CEE 444	Spring 2025	
CEWA 578/CEE478	Winter 2022	Prof. Rebecca Neumann
CEWA 579	Winter 2016	Prof. Jim Thomson
CEWA 566	Spring 2015	Prof. Andy Jessup

SERVICE

Departmental service

Task leader for Increasing Enrollment in CEE (under UG committee), 2022-2024
Education Committee (Grad Affairs), 2023-2024
EWP Area Co-Rep, 2022-2024
Beautification of CEE Wall space with CEE Mission Visuals, Plants 2023-2024
Area Rep for Hydrology and Hydrodynamics, 2021-2024
Faculty advisor, *American Water Resources Association* UW Chapter, 2023-2024
Promotion and Tenure Committee, 2018-2019 (Chair in 2019)
Undergraduate Affairs member, 2014-2021
Mentor Committee for CEE faculty
Established a 0.5 million dollar Endowment for Graduate Fellowships for Ivanhoe Foundation in 2020

College service

College P&T Council, 2024-present
Selection Committee, Global Engagement Award, Office of Global Affairs, UW, 2025
Selection Committee, Diamond Award, 2023-2024

Executive Committee, Future Rivers, NSF Research and Training, 2019-2024
Faculty advisor (with Becca Neumann), *Engineers without Borders* UW Chapter, 2016-2019
EarthLab, Steering Committee, 2017-2018

University service
Fulbright review panel, 2020
Faculty senate, 2015-2019
Royalty Research Fund Panel – 2018-2019

Professional society service
Co-Chair, US-Iraq Science and Technology Dialogues, US State Department, 2022-2024
Deputy Program Associate, NASA Surface Water and Ocean Topography (SWOT) Mission, 2020-2023.
Member, New Voices in Science, Engineering and Medicine, National Academies, 2018-2020
Vice President of Academic Affairs, American Institute of Hydrology, 2017-2019
Member, Scientific Advisory Group for A-CCP, NASA, 2018-2019
Member, PO.DAAC User Working Group, 2018-2022
Editor, Journal of Hydrometeorology 2015-2020
Associate Editor, Journal of Hydrometeorology, 2014-2015
Chair of ASCE Task Committee (under Environment and Water Resource Institute of ASCE) on *"Infrastructure Impacts of Landscape-driven Weather Change"* 2014-2017
Voting Member, ASCE Watershed Management Technical Council, 2014-present
Award Reviewer, American Society of Engineering Education, 2014-2015
Falkenberg Award Committee, American Geophysical Union, 2015-2017
Science Team member and Applications Lead, NASA-CNES SWOT mission, 2016-present
Associate Editor, Journal of Hydrometeorology, 2012-2013
Science Definition Team member, NASA-CNES SWOT mission, 2012-2014
Associate Editor, *Journal of American Water Resources Association* JAWRA. 2006-2010
Working Group Co-Chair, *Hydrologically Relevant Error Metrics for Satellite Rainfall Data*, International Precipitation Working Group (IPWG) – PEHRPP Workshop, World Meteorological Organization, Geneva, Switzerland, December 3-5, 2007.
Session Chair, *Hydrological Sciences for Managing Water Resources of the Asian Developing World*, Guangzhou, China, June 9, 2006.

All other service

International, national or governmental service
Reviewer for NSF for site visit, 2024
NASA Commercial Satellite Proposal Review Team, 2024
Reviewer *National Academies of Science, Engineering and Medicine, Board on Atmospheric Sciences and Climate (BASC), Water Science and Technology Board (WSTB)*, 2024
NASA Satellite Mission Proposal Review Team, 2023
US Fulbright Program Review Panel (South and Central Asia) – 2014
US PI support (unfunded) for NASA-USAID PEER project *Scaling up of satellite-assisted flood forecasting systems in south and southeast Asian nations*; 2015-2017.
US-PI support (unfunded) for NASA-USAID PEER project *Application of geodetic, satellite remote sensing and physical modeling tools for management of operational groundwater resource in the Red river delta, Vietnam*; 2015-2018.
US PI support (unfunded) for NSF-USAID PEER project *Improving adaptation against coastal vulnerability and enhancing flood forecasting skill in Bangladesh through a satellite data integrative modeling framework in a changing climate,* 2014-2017.

Point of Contact and Instigator of MOUs for UW Civil Engineering with International Center for Integrated Mountain Development (ICIMOD), Pakistan Council of Research in Water Resources (PCRWR), Nanyang Technological University- Singapore (NTU) and Institute of Water Modeling (IWM), 2014-2018.

Coordinator for curriculum development of the undergraduate civil engineering program for the Kurdistan Regional Government (Iraq). 2009-2010.

Hosted visiting faculty from Koya University (Iraq) on curriculum development. 2009-2010.

Proposal review panelist, *National Science Foundation (NSF) Graduate Fellowship Program*, 2005-2007.

Proposal review panelist for NSF *TUES Program* 2012-2014.

NASA ROSES proposal review panelist on Earth Science and Applied Sciences 2010-2013.

Proposal Reviewer for *NASA-ROSES,* 2006-201present

Proposal Review for *NSF,* 2007-present

Proposal Reviewer for *Hong Kong Research Grants Council,* 2007

Proposal Reviewer for *Swiss National Science Foundation*, 2007

Proposal Reviewer for *Mathematics of Information Technology and Complex Systems Network of Centers of Excellence* (MITACS-NCE) 2004-2012.

All other service

Lead Organizer, *NASA SWOT User Workshop for Bangladesh Water Development Board*, December 18-20, 2023

Lead Organizer, NASA SWOT User Workshop titled "3rd *SWOT Virtual Early Adopter Hackathon,*" University of Washington, from April 25-28, 2022.

Lead Organizer, NASA SWOT User Workshop titled "2nd *SWOT Virtual Early Adopter Hackathon,*" University of Washington, from March 8- March 11, 2021

Lead Organizer, NASA SWOT User Workshop titled "1st *SWOT Virtual Early Adopter Hackathon,*" University of Washington, from May 26-May 29, 2020

STEM Education and Outreach for Diversity, Equity and Inclusion for National Academies NEW VOICES.

Project lead for Children's Book "The Secret Lives of Scientists, Engineers and Doctors" series (spin-off from NEW VOICES)

Lead Organizer, NASA SWOT User Workshop titled "*2nd SWOT Early Adopters Training Workshop*" held in CNES HQ, Paris, May 20-21, 2019.

Lead Organizer, NASA SWOT User Workshop titled "*Engaging the User Community for Advancing Societal Application of Surface Water Ocean Topography (SWOT) mission*" held in USGS HQ, Reston (VA), from April 5-6, 2017.

Lead Organizer, NASA Decadal Survey E2 Workshop titled "*Globalizing Societal Application of Scientific Research and Observations from Remote Sensing: The Path Forward*" held in Tacoma Holiday Inn from June 22-25, 2015.

External Promotion Evaluator – Aalto University, Finland, 2024

External PhD Thesis Examiner – University of Melbourne, Australia, 2018, 2019

External PhD Dissertation Committee member– University of Sherbrooke, Canada, 2016

NASA ROSES review panelist for Interdisciplinary Sciences and Water program, 2015-2016.

Lead Organizer, UW Student Film Contest, Spring 2017-present

Director of Student Recruitment Video for Hydrology and Hydrodynamics group of Civil and Environmental Engineering at UW. [watch online at: https://www.youtube.com/watch?v=-Kz-1M8mIzw], 2014.

Book review on "*Water Diplomacy: A Negotiated Approach to Managing Complex Water Networks*" by S. Islam and L.E. Susskind (RFF Press) – Review appeared in *EOS* (American Geophysical Union), 2013.

Lead and invited author in 2009 of chapter titled '*Reservoirs, Transboundary Issues and Human Impacts*' for Mission Science Document of the proposed NASA-CNES Surface Water and Ocean Topography (SWOT) Mission (launch date 2021).

Coordinator and lead organizer of CEE 1020 Student Film Contest, 2007-2009.
